

<b>ICS 201-2 - Summary of Current Actions</b>		Version Name: Maricopa 02 - 06	
Incident Name: Avian Influenza (Maricopa 02 - 06)		AZDA 02 [06/16/2025 06:59 - 06/18/2025 06:59]	
<b>Initial Response Objectives</b>			
Detect, control, and contain HPAI in poultry as efficiently as possible:			
Use quarantine, depopulation, disposal, and virus elimination response processes on infected premises to mitigate HPAI virus.			
Surveillance and diagnostic testing to identify new/potential sources of infection, as well as to demonstrate disease freedom.			
Eradicate HPAI using strategies that seek to protect public health and the environment, and stabilize animal agriculture, the food supply, and the economy:			
Evaluate and process permit requests as quickly as possible for continuity of business.			
Implement and enforce safety protocols, wellbeing of all incident responders:			
Maintain safety for all responders via wellness monitoring, job hazard assessments, and Safety Officer interaction in the field.			
Provide science- and risk-based approaches and systems to facilitate continuity of business for non-infected animals and noncontaminated animal products.			
Use the Emergency Management Response System (EMRS) to track and document incident activities.			
Respond to the incident in a fiscally responsible manner.			
Operational Priorities			
Maricopa 02: Complete required surveillance for control area release by 6/27 with a tentative release on 6/28. Ensure the compliance continuity of business plan (ongoing).			
Maricopa 03: Support the company/contractor to complete disposal by 6/20. Support the company/contractor to complete IVE by 6/23. Complete required surveillance for control area release by 7/7.			
Maricopa 04: Support the company/contractor to complete disposal by 6/20. Support the company/contractor to complete IVE by 6/23. Complete required surveillance for control area release by 7/7.			
Maricopa 05: Initial virus elimination (IVE) completed 6/18. Complete required surveillance for control area release by 7/2. Identify fumigation date and appropriate monitoring staff for environmental structure testing.			
Standing Priorities			
Continue to ensure compliance and address deficiencies with established biosecurity protocols.			
Ensure through engaged monitoring, appropriate rest, recovery, and replacement for incident responders.			
<b>Current Actions</b>			
<i>Date/Time</i>	<i>Action/Event/Notes</i>
